Joseph F. Heavey
CEO

To Our Patients,

It is with great regret that we must close our Pawling office effective May 18, 2018. With the impending merger of Health Quest and Western Connecticut Health Systems, we have not been able to continue our lease with Health Quest at our current location. We have been proud to care for the children of Eastern Dutchess County, as well as many from surrounding areas, for the past many years.

We value our relationship with all of you and your confidence in allowing us to care for you children, and, until such time as we can secure new space, we look forward to continuing our relationship in our other locations. Since all of your children's medical records are electronic, there will be no loss of continuity of care.

Dr. Lessin will be seeing patients in our Hopewell Junction office. Dr. Kirpan will be seeing patients in our Poughkeepsie office.

The Children's Medical Group has offices in Hopewell Junction, Fishkill, Poughkeepsie, Hyde Park, Rhinebeck, Kingston, Modena, and Newburgh.

We deeply express our gratitude to you for allowing us to provide medical care to your children.

Sincerely,

The Physicians and Staff of The Children's Medical Group
